

CHA: Move Up Policy, Age to Skill Appropriate Division

CHA supports USA Hockey recommendations that skaters play in their age appropriate division and generally discourages moving players up a division. CHA recognizes there may be situations that warrant advancing a skater to the next division and will consider 'Move Ups' on a case-by-case basis according to the following criteria. All skaters must demonstrate proficiency (equal to the top third skill level of the target division) of the skills identified in this policy to 'Move Up' to the requested age division. Move Up is possible only within House divisions. Criteria to play in a Travel division are established during the Travel 'try out' sessions held prior to the season starting. This policy does not create an avenue to bypass Travel 'try out'. CHA will consider 'Move Ups' on a case-by-case basis according to the following criteria.

CHA reserves the right to modify/change this policy and criteria to conform to current best practices(s) of this Association or other governing bodies.

GENERAL CRITERIA AND PROCEDURE FOR ALL MOVE OUTS

Must have played at least one year in age appropriate division.

Must demonstrate knowledge and skill developed during prior season.

Letter of request must be received by the CHA Board prior to the October meeting. Written requests must be submitted by a player's parent or guardian.

Parents or guardians of players moving up will be required to sign an indemnification agreement with CHA/MAHA on all requests.

Request must be accompanied by justification statement that clearly defines how this will benefit the skater's skill development. Must address how the player's emotional maturity and physical abilities support the player being successful at the higher age classification. Justification statement must also address how the move will impact the team the player is trying to join and the impact on the team the player would play for in the House division.

Reference letter and a copy of the player's evaluation form from the player's most recent coach must accompany the request. The evaluation must include an assessment of the player's overall knowledge of the game (positioning, off sides, penalties, etc.).

Reference letter from at least one other coach from the division the player wishes to move from must accompany the request.

Player must confirm desire to move to the next level by conversation with the coaching director.

Player must demonstrate proficiency in hockey skills as outlined below and as referenced in USA Hockey Skill Progression Manual. Proficiency must be graded in the top third of the target division in order to qualify for 'Move Up'. Goalies need to demonstrate the skating and goalkeeping skills outlined below.

Receive recommendation by the requested division coaches via evaluation criteria outlined in this policy to be conducted during preseason evaluation period.

The Coaching Director will notify the requestor of the CHA Board 'Move Up' decision prior to team drafts for the fall season.

Evaluation will be conducted by prior season coaching staff, target division coaching staff, and selected CHA Board members (minimum of three). Evaluations will be completed and given to the full CHA Board for review and final recommendation. Move Ups requiring District 7 approval will be sent to the District 7 Chairperson.
